

## TWENTY-ONE MEN HURLED TO DEATH

Frightful Disaster in a Coal  
Mine Near Dayton,  
Tennessee.

## MINE DUST EXPLODED

Nine Men Were Terribly  
Burned, Most of Them  
Fatally—Four Escape.

## RESCUE FORCE ARE AT WORK

Dayton, Tenn., May 28.—At the Richmond Mine of the Dayton Coal and Iron company, two miles from Dayton, at 4:30 yesterday afternoon a terrific explosion of coal dust resulted in the death of twenty-one men, all white, most of them all married and with families.

The dead are:  
TOM WRIGHT,  
DICK SMITH,  
WILL MATTHEWS,  
SAM SMITH,  
BAILEY SMITH,  
TOM WALKER,  
GEORGE HOLMES,  
J. F. GOTHARD,  
TERRY SMITH,  
ABE GOTHARD,  
SAM BURWICK.

Caused by "Blown Blasts"  
The explosion was caused by what is known among miners as a "blown blast." It is the custom of miners to place blasts and fire them off at quitting time each afternoon, leaving the coal thus thrown down to be loaded and hauled from the mine the next morning. The Richmond mine is destitute of water, and great volumes of fine coal dust invisible to the naked eye, accumulate at the roof of the mine. This dust is subject to explosion if exposed to flames.

Seething Mass of Flames  
A dynamite cartridge was placed in position in one of the rooms for a blast and the miners started for the mouth of the mine. The blast did not explode as intended, but instead, a long flame shot out of the blast hole and ignited the accumulation of dust.

Instantly a terrific explosion occurred and a seething mass of flames shot to the mouth of the mine and extended 300 feet into the open air, scorching the leaves of the nearby trees. There were thirty-four men in the mine at the time. Four of these escaped with slight injury.

Twenty-one were killed and nine were terribly burned, most of them fatally. The force of the explosion caused great masses of coal and slate to cave in from the roof of the mine, and many of the fated miners were completely buried.

Rescue Forces at Work  
Word quickly reached Dayton and rescue forces were at once organized and proceeded to the mine. One by one the blackened and horribly disfigured bodies were taken from the debris and carried to the mouth of the mine where they were put on a locomotive and taken to Dayton. All the men employed in this mine were residents of Dayton.

## GROSVENOR GIVES HIS LEGAL OPINION

Supreme Court Decision Places Insular Possession on Same Footing as District of Columbia.

Washington, May 28.—Because of contrary interpretations placed upon the supreme court's decision of the insular case, Congressman Grosvenor of Ohio has given the Scripps-McRea his legal opinion on the subject. He says the entire result of the series of decisions is as follows:

The court holds that the ratification of the treaty of Paris the insular possessions become a part of the United States for every purpose with the limitation that congress has ample power to legislate independent of tariff limitations of the constitutions in regard to those islands and the same result necessarily follows as to the question of citizenship and every other question, the court putting those islands upon the exact footing with the District of Columbia.

## SCHOONER RAND IS BELIEVED LOST

Racine, May 28.—There is a belief that the vessel lost off Sheboygan during the recent snow storm is the schooner Rand of Racine, commanded by Captain Jefferson. The description of the wreck tallies with the Rand and no tidings have been received of the Rand since the storm.

Flo B. Shawyan, who has been out with a theatrical company the past season is the guest of her parents, Mr. and Mrs. S. Schwyan.

## DISFIGURED BY HAZERS.

Young Man at Batavia, N. Y., Has Face Painted with Acid.

Nek York, May 28.—The town of Batavia, a Rochester special to the Times says, is excited over a case of hazing. Great rivalry has long existed between the graduating class and the class of 1902 in the high school, and the class fights have been most bitter. A climax has been reached, for John Swartz, a member of the graduating class, was waylaid in a lonely section of the town, securely bound to a tree and his face was painted with a mixture of acid and iodine. The figures "02" were clearly drawn on his left cheek.

Blinded with pain, Swartz was released and secured medical aid in removing the acids. The chances are good that his face will always bear marks of the hazers' brush. Vigorous efforts will be made to bring the offenders to justice.

Blows the Train Into Atoms.  
Tacoma, Wash., May 28.—A Great Northern freight train collided with a dynamite car here. The engine and train were totally destroyed.

The ladies of the Woman's Relief Corps have been busy this afternoon making evergreen wreaths and crosses in the vacant store in the Grubb block, formerly occupied by Thompson's grocery. They will be employed in the same labor of love tomorrow and all of the ladies who can help them are required to be at the store as early as possible tomorrow morning. There is a scarcity of flowers this year and all of those who can make contributions of blossoms are urged to bring them to the store at an early hour tomorrow.

School children are especially requested to collect as many flowers as possible and bring them to the vacant store in the Grubb block, West Milwaukee street, where the ladies in charge will make them into bouquets to be placed on the graves of the dead soldiers on Thursday morning.

## LATEST FOREIGN NEWS.

Chosen to Kill the Kaiser.  
Rome, May 28.—A newspaper published in Verona reports the attempted suicide of a youthful blacksmith named Pietrucci, who has confessed that he belonged to a society of anarchists and was chosen by lot to kill the emperor of Germany. He preferred suicide to making the attempt. In his confession he also disclosed the names of certain of his comrades who had been selected to kill Queen Helena of Italy, President Loubet of France and the czar of Russia.

Play Causes Riot in Russia.  
London, May 28.—Rioting has spread to South Russia, says a dispatch from St. Petersburg, as a result of the production of the anti-Semite play, "The Smugglers." At Kutais thousands of people congregated around the theater and stoned the police. A detachment of Cossacks charged and dispersed the crowd. Thirteen policemen, 15 Cossacks, and two officers of Cossacks were severely injured.

New World's Record in Broad Jump.  
London, May 28.—P. O'Connor of Waterford broke the world's record for the running broad jump today in the Irish championship events at Dublin, clearing 24 feet 9 inches. This beats the previous record made by Myer Prinstein of Syracuse University of 24 feet 7 1/4 inches in the games at Philadelphia April 23 of last year.

New Cable Is Laid.  
London, May 28.—A new submarine cable between England and Germany has just been put down. The cable is owned by a British company, but the German government contributed to its cost and a German firm was employed to carry out the work.

More British Are Captured.  
London, May 28.—The Times publishes the following from Craddock, dated May 27: "Kritzingers' invaders of Cape Colony captured a British post of forty-one men near Mariasburg after a stout resistance."

Marriage Boom in Paris.  
Paris, May 28.—All records in the marital line were beaten in this city on Saturday and Sunday, when 700 marriages were solemnized.

## PROF. HERRON HAS MARRIED MISS RAND

UNCONVENTIONAL CEREMONY PERFORMED IN NEW YORK.

Talks of Reciprocal Love—Bride and Bridegroom Take Each Other to Be Companions—Their Lives Are to Be Devoted to the Cause of Socialism.

New York, May 28.—The Rev. Dr. George D. Herron and Miss Carrie Rand, the only daughter of Mrs. E. D. Rand of Burlington, Iowa, were married at 7 o'clock last Saturday evening in the apartments of Chas. Brodie Patterson, in the Schuyler, No. 59 West Forty-Fifth street, by the Rev. William Thurston Brown, pastor of the Plymouth Congregational church at Rochester.

Dr. Herron is the founder of "The New Social Apostolate" and is a socialist of a peculiar type. His bride and mother are converts to the gospel he preaches. The Rev. Mr. Brown, the officiating clergyman, is what might be called a partial convert. Charles Brodie Patterson is a mental science healer.

Dr. Herron and Miss Rand have been thinking of getting married for a long while and since March 22 there has been no obstacle to the union. On that day Dr. Herron's wife got a divorce from him at Algonia, Iowa, on the ground of desertion. The suit was undefended and the court gave to the wife the custody of her four children.

The few guests who had been invited to the wedding were seated in the parlors when the bride and bridegroom, each unattended, walked in. There was no wedding march, nothing to announce their coming. Neither Dr. Herron nor his bride believes in conventional marriages. In speaking of marriage the doctor once said:

"People who love each other, and who, therefore ought to live with each other, need no laws to bind them together. The coercive family system will pass away with the coercive economic system. When the love exists on the part of one and not on the part of the other there can be no possible good in the two being kept together by external law."

With a bride and bridegroom holding such notions of the marriage relation their wedding might be expected to be somewhat unconventional. It was. When Dr. Herron and Miss Rand had entered the room, Dr. Herron in substance said:

"My friends, I have chosen Miss Rand to be my companion."  
Then Miss Rand said:  
"I have chosen Mr. Herron to be my companion."

That was all there was of the marriage ceremony, so far as the parties regard the essentials.

## ARREST A SUSPECT AT MINERAL POINT

H. C. Winter is Under Suspicion of Being the Robber of the First National Bank There.

Mineral Point, Wis., May 28.—The Mineral Point police have arrested a man whom they will try to connect with the burglary of the bank in this city a few nights ago. The man was found two miles southeast of the city, and was returning toward the city. His actions were suspicious, and after his arrest, beyond giving the name of H. C. Winter, he refused to tell anything about himself saying, "I do not know," to every question that was put to him.

Winter had been about the city for a month past but had been in no apparent business. The night before the robbery he disappeared. Yesterday afternoon he was seen walking along toward Mineral Point, but slipped into a clump of woods when passers by approached. The Mineral Point police were notified and soon found Winter.

When arrested he had \$35 dollars in his pockets. None of the stolen money has been so far recovered, but it is believed that at least some of it is concealed in the woods near which Winter was arrested and a careful search will be made for it today.

## BRICK MEN'S STRIKE IS DECLARED OFF

New York, May 28.—The strike and lockout of the brick layers which paralyzed the building industry here the past ten days ended this morning, a joint arbitration board having agreed to arbitrate the dispute later.

Bryan to Speak at Assembly  
Madison, Ind., May 28.—William J. Bryan today accepted the invitation to deliver an address at Beach Grove Park on July 4, the opening day of the Madison Chatauqua assembly. Forty thousand people are expected that day from Kentucky and Indiana.

## FINE BANQUET SET AND BRONZE BADGER

GIFTS FOR WARSHIP WISCONSIN ARE PRESENTED.

Committee Representing the People of This State Give to the Officers and Crew of the New Addition to the United States Navy an Elegant Silver Service.

San Francisco, Cal., May 28.—The people of Wisconsin showed their appreciation of the splendid new fighting machine named after their state by presenting the battleship with a magnificent silver service and a bronze badger, the emblem of the state. With marines and bluejackets drawn up at parade, with officers in natty new uniforms, with colors flying and with martial music to stir the pulses, the pride of the great inland state in the pride of the finest battleship in the new navy was voiced by the chairman of the Wisconsin committee.

About noon yesterday, the presentation party consisting of Mr. and Mrs. Julius Bleyer of Milwaukee, Senator and Mrs. De Wayne Stebbins of Algonia, Dr. J. C. Reynolds and Master Benoni Reynolds of Lake Geneva, and R. B. Arnold and S. S. French of Lake Geneva were met at the Folsom street dock by Ensign Church of the Wisconsin and conducted to the battleship in the launch.

The commanding officer, Captain Reuter, received the committee. Upon the forward deck the marines and sailors were assembled in two long lines, facing the forward turret. Following the greetings and introductions the simple ceremony of the presentation took place.

First the bronze badger and state shield, bearing the state motto, "Forward," which had been placed on the pilot house in a conspicuous position were unveiled, amid rousing cheers from the crew. This bronze work has historical interest, for it was cast from guns taken from the Spanish ships of Cervera's fleet the white squadron defeated off Santiago Bay three years ago.

Then in a few well chosen words Mr. Bleyer presented the silver service. He reviewed the history of the popular movement that resulted in the gift. In 1899, he said, the legislature appropriated \$10,000 for the service and the "badger." Captain Reuter made a brief reply thanking the state of Wisconsin and its people for the gift. He said that the beauty of the service was typical of the generosity of the citizens of the ships namesake.

## WILL ASK CHINA FOR A BIG SUM

Amount of Indemnity Likely to Be Fixed at \$337,000,000—To Decide This Week.

Pekin, May 28.—At last the question of the amount of indemnity to be exacted by the powers from China seems in a fair way to be settled. It now seems probable that before the end of the week Great Britain's proposition to fix the amount at 450,000,000 taels (about \$337,500,000) will be agreed to.

United States Special Commissioner Rockhill thinks this may be considered an American victory. Though his proposition limiting the indemnity to 310,000,000 taels was not accepted, still it was the cause of the other powers considering the idea.

The only point likely to cause further delay in a decision by all the powers except America is that regarding the raising of the foreign customs 5 per cent. Mr. Rockhill told the ministers at a recent meeting that rather than take steps America would relinquish all claims to the indemnity and even make a money present to China, as American commercial interests would suffer far more from raising the duties than those of any other power, with the possibility of one exception.

Willson Succeeds O. P. Dow  
Palmyra, Wis., May 28.—Archie Willson has been elected president of the Southern Wisconsin Old Settlers' association in the place of O. P. Dow, who died last week. The annual picnic will be held the third Thursday in June at the old place on the lake shore and thousands of people are invited to attend.

McKinley At Omaha  
Omaha, May 28.—The McKinley party passed through Omaha this morning. The party stopped here twenty minutes. The president stepped from the car and greeted the people on the platform. Mrs. McKinley was the recipient of many flowers.

Beloit Men to Teach in Orient  
Beloit, Wis., May 28.—Robert R. Teal of the college class of 1900 now a teacher in the Beloit high school, and C. S. Loretz, class of 1901, of Beloit, have received appointments from the government as teachers in the Philippines and will soon go to their new field of work.

## REORGANIZE LAND OFFICE

State Commissioners Will Hold a Meeting Tomorrow at Madison  
Madison, Wis., May 28.—The state land commissioners, consisting of Secretary of State Froelich, State Treasurer Davidson and Attorney General Hicks, expect to meet tomorrow for the purpose of organizing the state land office in accordance with the new law recently enacted by the legislature. The law provides that the total salaries of the office shall not exceed \$6,500 a year. Under the present system a number of clerks employed in other departments are credited to the land office.

Strawberry Crop Is Ruined  
New Richmond, Wis., May 28.—A careful canvass has been made of this and adjoining counties and of some of the towns along the Omaha and the Wisconsin Central, and it is found that while the frosts of the past week were disastrous to strawberries and small fruit, the grain and vegetable crops escaped injury.

## TWO FARM HANDS BLOW OUT THE GAS

An Accident at the Hotel London Last Night That Nearly Cost Two Lives.

Groans issuing from a room in the Hotel London at four o'clock this morning attracted the attention of Miss Holden, one of the employees of the hotel to the room occupied by Pete Farrell and George Pricey, two farm hands who had lately been employed on Sam Lock's farm near Emerald Grove.

She immediately summoned Fred Jones, the proprietor, who on getting near the room smelled gas and knew something was wrong. He forced the door and found Farrell and Pricey perfectly helpless from the effects of the gas which was escaping from the burner near by.

He at once summoned Dr. Woods, who after working over the men for two hours succeeded in bringing them around all right. It was a narrow escape and had the transom over the door been closed or had the young lady not heard their groans, it would soon have been too late to help them.

Farrell said he and Pricey retired last night about nine o'clock. When they went to bed the gas was burning so they laid down and talked for some time.

Pricey understood about the gas, but Farrell did not. Pricey dropped off to sleep and Farrell got up to put out the light, he turned it down same as he would a lamp and then blew it out and went to bed. That was the last that he knew until the doctor succeeded in arousing him. Both he and Pricey were nearly gone and were in a state of perfect helplessness when found by Jones. It was only by the hardest sort of work that they were revived.

Farrell said he knew nothing about gas and supposed the way to put it out was the same as with a lamp so he turned it part way out and then finished it by blowing. Some people should have a guardian appointed for them for just such things as this.

## PICK THE EAGLE AS EMBLEM FOR WOMEN

Hereafter the American Women Will Cease To Be a Hen—Suffragists Meet in Chicago.

Chicago, Ill., May 28.—Henry T. Blackwell and his daughter, Alice Stone Blackwell, delegates to the National Women's Suffrage association convention in Minneapolis, who are here on their way to that city, were guests of the Chicago Political Equality league at a reception yesterday afternoon in the rooms of the Chicago Woman's club. Many of the suffrage leaders who are in the city were present.

The eagle will hereafter be the model and emblem of the suffragists. Miss Blackwell in her address during the reception said:

"Hereafter the American women must cease to be a hen which would do better than cackle and scratch. She must cease to be a mere nightingale that can only feed her young and warble. She must be the eagle mother and her slogan must be 'Woe betide the male chicken hawks which swoop down upon her offspring.'"

Hebrew Zionist Movement  
Constantinople, May 28.—Dr. Herzl, who is the leader of the Hebrew Zionism movement, is here seeking the Sultan's authority for a Palestine colonization for four years. The Sultan declined to negotiate for the present, but the financial crisis in Turkey has raised the Zionist's hope of success.

Another Jack, the Ripper  
London, May 28.—A woman was found terribly mutilated in a bedroom in the Whitechapel district. The murder has caused consternation in the district and a recurrence of Jack the Ripper is anticipated.

## BIG STEAMER ON FIRE IN MID LAKE

Soo Line Boat Hennepin Saved by the Propeller Cuba.

## BLAZING FOR 8 HOURS

Crew of Both Boats Are Kept Busy Fighting Flames Off Seul Choix Point.

## WRECK OF BALTIMORE FOUND

Mackinaw City, Mich., May 28.—The steamer Hennepin of the Soo line, bound from Buffalo to Gladstone with a cargo of general merchandise, was on fire in Lake Michigan for eight hours and was only saved from complete destruction by the assistance rendered by the steamer Cuba, which went to the aid of the burning boat at 8 o'clock a. m. The crew of the Cuba noticed the burning boat when it was off Seul Choix Point, in Lake Michigan, and their steamer was at once headed toward the burning boat. They found the Hennepin burning around the engine-room, and the smoke was so thick that the engineers had been driven from their posts. The Cuba took a line from the burning steamer and started to tow it toward the straits. The Hennepin's crew worked manfully to save their boat, however, and when near Wauchance they succeeded in putting the last of the fire out. The blaze had originated under the boilers, and the deckbeams of the boiler deck, four in number, with stringer and stanchions, are destroyed. After the crew of the Hennepin had declared that they needed no further help, the Cuba was turned toward the straits again and the Hennepin started for Gladstone, and will arrive there at 3 o'clock tomorrow morning, if everything goes well. The Cuba passed down at 2 o'clock p. m., and the master reported the fire.

Locate Wreck of Baltimore  
East Tawas, Mich., May 28.—The wreck of the lost steamer Baltimore was found today by the searchers near Fish Point. The engine cylinders show three feet above the water, but the boiler has been rolled off the wreck. All of the upper works have been washed away by the heavy seas and the wreck is a dangerous obstruction to navigation, lying as it does in eighteen to twenty feet of water, right in the course of steamers and about two miles from the beach. Mrs. Owen, Mr. Scott, and two brothers of Mrs. Place have arrived to search for bodies.

River Steamer Goes Down  
Burlington, Iowa, May 28.—The Diamond Joe packet Dubuque, south bound, struck a rock eighteen miles north of here and sank in five feet of water in half a minute. There were fifty passengers on board, but no fatalities resulted, the packet W. J. Young going at once to the aid of the Dubuque. The Dubuque struck a rock in midchannel eighteen miles north of Burlington between 7 and 8 p. m. A large quantity of flour carried on the deck fell into the water when the vessel listed.

See Overturned Schooner.  
Marquette, Wis., May 28.—Captain Robert Evans of the steam barge Francis Hinton, bound from Milwaukee to Marquette, has arrived here. He reports finding a capsized schooner fifteen miles off Manitowoc on Sunday afternoon. It was a large three-masted schooner, and had a cargo of hardwood slabs on board. He picked up one of the spars of the boat and brought it here. He was unable to ascertain the name of the craft.

New Book By Rev. Lloyd Jones  
In its literary notes the Chicago American contains an announcement concerning Rev. Jenkin Lloyd Jones, formerly of this city, which will be read with interest by many of his local friends.

The announcement says: "A new book by the Rev. Jenkin Lloyd Jones of All Souls Church, Chicago, will be published next month under the title 'A Search For An Infidel.' It is written, like Mr. Jones' previous volume, in an out-of-doors atmosphere and forms another chapter in the nature gospel of good fellowship, mutual service and kindness which the author has preached for many years."

Leaguers Elect Officers  
Burlington, Wis., May 28.—At the Southwestern Wisconsin District Epworth league convention held officers were elected as follows: President Elmer Hulbert, Rochester. Racine county, Miss Rhodes, Somers. Kenosha county, superintendent of junior work, Miss Gertrude Buckholtz, Racine.

Population of Australia.  
Melbourne, Australia, May 28.—The new census returns give the population of Australasia at 4,550,651. This is an increase of 740,756 since the last census.

## HEATING FRANCHISE AGAIN LAID OVER

THE ELECTRIC COMPANY MAY  
HAVE TO PAY FOR IT.

Aldermen Rice, Gilkey and Judd Pro-  
test Against Giving Away a Val-  
uable Franchise for Nothing—Routine  
Business at the Common Council  
Meeting Held Last Evening.

Mayor Richardson presided at the  
regular meeting of the common  
council held last evening and all the  
aldermen were present except Ald.  
Hutchinson. The minutes of the  
last meeting were read and approved.

The report of the Janesville Water  
company in regard to the location  
of the water hydrants was referred  
to the fire and water committee and  
then placed on file.

The application of Mary A. King to  
erect a building at the corner of East  
Milwaukee and South Bluff streets  
and that of F. C. Grant to move a  
frame building in the fire limits was  
referred to the fire and water com-  
mittee, who later asked for more  
time which was granted.

The report of the street commis-  
sioner of work done in repairing and  
building sidewalks was referred to  
the highway committee, who later  
recommended that the report be  
adopted and the amounts placed on  
the tax roll against the several  
pieces of property benefited. Ald.  
Gilkey from the finance committee  
reported favorably on a batch of bills  
and moved that the clerk be instructed  
to draw orders on the city treas-  
urer for the several amounts. The  
largest bill in the bunch being that  
of the Janesville Water company of  
\$3,150 for hydrant rental.

The mayor was instructed to bor-  
row \$5,500 and place \$2,000 to the  
credit of the general fund and \$3,500  
to the credit of the fire and water  
fund.

The ordinance creating the office of  
assistant street commissioner was  
given its third reading and passed.  
The highway committee asked that  
the final action on the closing of  
High street be postponed until June  
10 in order that any objections against  
the closing of the street might be  
made. The highway committee pre-  
sented a number of bills amounting  
\$480 for the finishing up of Martin's  
contract on Court street and they  
were received and ordered paid out  
of the general fund.

The Janesville Electric company  
were ordered to place an arc light  
at the corner of South River and  
Dodge and at the corner of Racine  
and Ringgold streets.

The contract of city hall committee  
with E. A. Rush Co. of Grand Rap-  
ids, Mich., for plans for the city  
hall was accepted and placed on file.

The company are to prepare all  
the plans and specifications for the  
building. Drawings and working  
plans and everything necessary for  
the information of contractors. They  
are to give the work their general  
supervision to protect the city from  
loss by the defective workmanship.  
The compensation calls for a sum  
equal to 5 per cent. of the actual cost  
of the building, including everything  
requisite and necessary to render the  
same fit for occupancy.

There is a provision in the con-  
tract however, that should the city  
be unable to let the contract for the  
construction and completion of said  
building to a good and responsible  
bidder for the sum of \$42,000 or less,  
then the city has the right to annul  
the contract and refuse to build the  
building and that Rush & Co shall  
receive no compensation for the plans  
or for any services performed.

The city engineer was instructed  
to establish a grade on Prospect ave-  
nue between Main and Bluff streets  
in the second ward and file the same  
in the office of the city clerk.

F. H. Kothman, George Airis and  
Ed. Broiley were given permission  
to move buildings from lots 53, 54  
and 55, Smith, Bailey and Stone's ad-  
dition to Railroad addition.

Orders for about a dozen sidewalks  
in different parts of the city were  
introduced by the different aldermen.

The Janesville Water company was  
instructed to locate a hydrant at the  
corner of Sinclair and South Second  
street at the end of a four inch main.

The street assessment committee  
was increased to five members by  
the addition of aldermen McLean and  
Gilkey. The street commissioner  
was instructed to put Beloit avenue  
in good repair.

Dr. E. F. Woods was granted per-  
mission to use a portion of South  
Bluff street for storing material while  
erecting a building.

The city engineer was instructed  
to establish a sidewalk grade on both  
sides of Court street from Sinclair  
to Harrison street.

The franchise granting to the Jan-  
esville Electric company the right to  
construct and operate a system of  
heating pipes in and upon said  
streets, highways and alleys of the  
city was brought out by Alderman  
Fifield and given its first and second  
readings. He said that the measure  
had been before the council for some  
time and that there were many now  
doing building and remodeling who  
desired to get estimates from the  
company for furnishing heat, but that  
it could not be done until the fran-  
chise had been granted. He said the  
city hall committee and also public  
library committee would probably  
use the system if the proper ar-  
rangements could be made. With  
the idea thus expressed, in view, he

moved the suspension of the rules,  
and the final reading and passage of  
the ordinance.

Alderman Rice wanted to know if  
it was so that if the franchise was  
granted that the company would  
heat the city hall free of charge. The  
city ought to get heat for the city  
buildings for granting a blanket fran-  
chise. The electric company now  
has a \$12,000 a year contract with  
the city and should be willing to fur-  
nish heat for the buildings free.

Alderman Judd, I am opposed to  
granting franchises for nothing. If  
I could get a franchise of this kind  
I would be willing to pay for it. I  
move as an amendment to Alderman  
Fifield's motion that the matter be  
laid over for two weeks.

Ald. Gilkey said the matter had  
been up for eight months and that  
all of the aldermen should know  
about it.

The vote on the amendment to lay  
the ordinance over for two weeks  
was five for and four against.

Alderman Gilkey told the mayor  
that he thought that it would be a  
good plan to put all of the aldermen  
in each committee seeing they were  
not willing to accept what the com-  
mittee recommends.

The salary of the assistant street  
commissioner was fixed at \$50 per  
month.

## DR. PHILLIP FOX IS GIVEN A VERDICT

Serious Charges Against Him in a  
Nebraska Court Are All  
Thrown Out.

A despatch from Omaha, Neb.,  
says that the eloquence of Col. Wm.  
F. Vilas, former senator from Wis-  
consin has won for Dr. Phillip Fox  
of Madison, Wis., brother of Dr. Geo.  
H. Fox of this city, a bitterly con-  
tested suit in the Nebraska courts  
for \$44,000. As executor of the es-  
tate of Catherine M. Tusler, who  
died in Madison in 1894, Dr. Fox  
was said by the heirs to have failed to  
account for an extensive herd of  
horses on a Western ranch. The case  
has occupied the attention of Judge  
Slabaugh's court for over a week,  
the concluding argument for the de-  
fense being delivered by Colonel Vilas.  
The court room was crowded  
with interested auditors. The jury  
returned a verdict that instead of  
owing the estate the amount named,  
the estate was indebted to Dr. Fox  
in the sum of \$440.

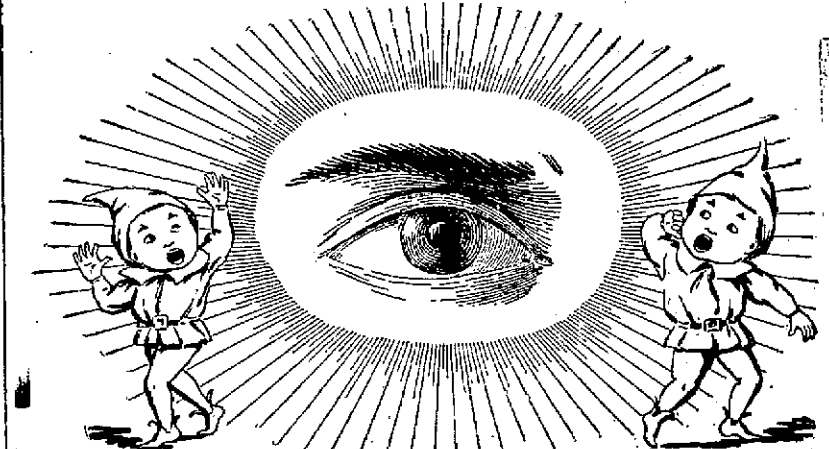

A judgment of \$40,000 was ren-  
dered against Dr. Fox at a former  
trial on claim of Mrs. Stoddard, who  
represented that he had not account-  
ed for a herd of horses to the Nebras-  
ka court. The present verdict re-  
verses this judgment.

At the present trial Dr. Fox proved  
that the horses were really in Wy-  
oming, at the time of Mrs. Tusler's  
death, and that he had taken charge  
and disposed of them as executor  
in Wisconsin. He produced testi-  
mony to show that during his ex-  
ecutorship Mrs. Stoddard paid him no  
rent for a house in Omaha, and the  
jury awarded him a judgment of  
\$445.

A Well Used Bible.  
The Bible, which is a part of the  
High school library, was sent to the  
bindery today to be rebound for the  
second time in the past five years.  
The fact that the binding has been  
worn out twice since the High school  
building was erected is proof that  
the Bible is a much consulted book.  
In fact it is said that it ranks with  
the dictionary in importance as a  
reference book, being used especially  
by the students in the various liter-  
ature classes.

THE EVIL EYE

Arrangements are already being  
made for the production here of the  
big spectacular attraction, Chas. H.  
Yale's "The Evil Eye," or as it is  
otherwise known, "The Many Merry  
Mishaps of Nid and the Wierd, Won-  
derful Wanderings of Nod," which is to  
be given at the Myers Grand on  
Monday evening, June 3. The scen-  
ery for the spectacle is carried in  
two special scenery cars, and a large  
force of men are necessary in plac-  
ing it in position. Among the elab-

## STATE TEACHERS MEET AT MADISON

Inter-Scholastic Declamatory Contest  
and the Field Sports Will Be  
an Attraction.

Supt. D. D. Mayne and a delegation  
of High school teachers and stud-  
ents will go to Madison the latter  
part of this week. A meeting of  
High school principals and teachers  
of the state will be held on Friday  
and Saturday, March 31 and June 1.

On Friday afternoon at 3 o'clock  
in Library hall will be held the in-  
ter-scholastic declamatory contest,  
in which Miss Eureka Kimball, of  
this city, is one of the contestants.

The Daily Cardinal says that the  
entertainment this year will be  
of a higher standard and  
a closer contest than ever before.  
In all nearly one hundred and fifty  
high schools entered the prelimi-  
nary contests this year. The follow-  
ing are the winners of first and sec-  
ond places in their respective dis-  
tricts, with the title of their decla-  
mations. These will enter the final  
contest next Friday:

From the Oshkosh district, Edna  
Ferbur, Ryan high, Appleton, "Story  
of Patsy;" Thomas Grey, Kaukauna,  
"Conner;" From the Whitewater  
district, Florence Copeland, Brod-  
head, "Eugene Aram's Dream;" Eu-  
retta Kimball, Janesville, "Helen  
Thrame." From the Superior dis-  
trict, Mr. Grey, Ironwood, Mich.,  
Lulu Pickering, Superior, "Story of  
Patsy." From the Plattville dis-  
trict, Sadie Jeffries, Miscooda, "Made-  
line's Victory." From the River Falls  
district, Robert Reed, River Falls,  
"Fight With the Aurochs;" Mida  
Lawson, Hudson, "Soul of the Violin."  
From the Milwaukee dis-  
trict, Emma Leins, West Bend, "Dr.  
Carter and His Mother;" Marjory  
Roberts, Milwaukee, "Eruption of  
Vesuvius." The contestants from  
the Stevens Point district have not  
yet been selected.

On Saturday afternoon at two  
o'clock the inter-scholastic athletic  
meet will be held at Camp  
Randall. This year a new rule has  
been adopted for the purpose of lim-  
iting the number of contestants to  
those whose preliminary work  
has been of such a quality as to  
entitle them to enter a state con-  
test. Certain records have been es-  
tablished in every event and only  
athletes who have made the stated  
record can enter the competition at  
Madison. The Janesville team, of  
which Frank Kent is manager, in-  
cludes Ross Bump, Claude Holloway,  
Channing Kent, Will Ryan, Herbert  
Go'din, and Edward Barron. The  
events in which they are entered are  
as follows:

100 yard dash—Bump, Goldin.  
220 yard dash—Goldin, Barron.  
440 yard dash—Kent, Barron.  
880 yard dash—Kent, Holloway.  
Mile run—Kent.  
Broad jump—Bump.  
High jump—Barron.  
Pole vault—Holloway.  
Hammer throw—W. Ryan.  
Shot put—W. Ryan, Bump.  
Discus throw—W. Ryan.  
120 yard hurdle—Bump, Goldin.  
220 yard hurdle—Bump.  
Relay race—Kent, Barron, Hollo-  
way, Ryan.

## PROPOSES TO USE CLAY RAILWAY TIES

A Janesville Inventor Invents a Tie  
Which Has Many Superior  
Advantages

The May issue of the Clay Worker,  
a journal devoted to the interest  
of a journal devoted to clay working in-  
terests, published at Indianapolis,  
has the following article on clay rail-  
road ties:

As people have grown wealthy it  
is easy to capitalize any venture that  
promises a fair profit. Permanen-  
cy is now the all-important consid-  
eration. The great railroad com-  
panies have long sought something  
more durable or permanent than the  
short hard wooden ties on which  
their tracks are laid. Steel and iron

ties have been tried unsuccessfully.  
It is thought that the problem may  
be solved by the introduction of a  
hollow, vitrified clay railroad tie,  
with steel fastenings. A drawing  
of such a tie has been submitted by  
its inventor, O. L. DeForest of  
Janesville, Wis. It is proposed to  
make the tie six feet in length and  
six inches in width and depth. It is  
made hollow, the shell being two  
inches thick. A steel bar extends  
through the top of the chamber,  
passing through fish plates, which  
clasp the rail and is secured by nut  
locks. The total weight of the tie  
would be about 150 pounds. While  
it might not prove efficient in all  
railway construction, it certainly  
would be ample for electric lines and  
railroad yard use.

There is no doubt of the durability  
of such a tie. The one question is  
would it stand the strain and shock  
of heavy traffic? The inventor in-  
sists that it will, and that in case of  
an accident resulting from a broken  
wheel, or any of the unavoidable  
happenings, the fastenings will pre-  
vent the rails from spreading.

Ties of this description can be  
manufactured by machinery at a  
cost little above that of white oak  
ties, and their manufacture can be  
extended over a much broader area,  
than that from which wood ties are  
now obtained. The cost of trans-  
portation would thus be reduced to  
a minimum. The use of such ties  
would add a very important indus-  
try to the clay working field.

### Denison Medal Meet.

The athletic meet to be held Wed-  
nesday afternoon for the deciding  
of the winner of the Denison medals  
will be after school and will not be  
a large meet. Probably only the  
events for which the medals are  
awarded will be included in the af-  
ternoon program and no admission  
will be charged.

Those who will compete for the  
prizes offered for the best 100 yard  
dash are Ross Bump, Herbert Gold-  
in, Will Ryan, Arthur Ryan, and  
Edward Barron. In the hammer  
throw the contestants will be Will  
Ryan, Arthur Ryan, Leo Ayers, and  
Ross Bump.

## From Washington

### How a Little Boy Was Saved.

Washington, D. C.—"When our  
boy was about 16 months old he broke  
out with a rash which was thought to  
be measles. In a few days he had a  
swelling on the left side of his neck  
and it was decided to be mumps. He  
was given medical attendance for  
about three weeks when the doctor  
said it was scarlet fever and ordered a  
salve. He wanted to lance the sore,  
but I would not let him and continued  
giving him medicine for about four  
months when the bunch broke in two  
places and became a running sore.  
Three doctors said it was scarlet fever  
and each ordered a blood medicine. A  
neighbor told me of a case somewhat  
like our baby's which was cured by  
Hood's Sarsaparilla. I decided to  
give it to my boy and in a short while  
his health improved and his neck  
healed so nicely that I stopped giving  
him the medicine. The sore broke  
out again, however, whereupon I again  
gave him Hood's Sarsaparilla and its  
persistent use has accomplished a com-  
plete cure. I do not think there will be  
even a scar left. I cannot speak too  
highly of Hood's Sarsaparilla and I re-  
commend it everywhere I get a chance."  
Mrs. NETTIE CHASE, 47 K St., N. E.

### Like Magic.

"A complication of troubles, dys-  
pepsia, chronic catarrh and inflamma-  
tion of the stomach, rheumatism,  
etc., made me miserable. Had no  
appetite until I took Hood's Sarsapa-  
rilla, which acted like magic. I am  
thoroughly cured." N. B. SEELEY,  
1874 West 14th Ave., Denver, Col.

If you have failed to get relief from  
other remedies try Hood's Sarsapa-  
rilla. It cures when all others fail,  
because it is Peculiar to Itself.

## Tailor- Made Suits

The sale of suits this  
year is unprecedented.  
When one stops to think  
that almost every wo-  
man wants one it takes  
a great many to supply  
the demand. Manu-  
facturers have made  
great strides in the  
turning out of suits.  
We do not try very hard  
to sell suits at less than  
\$10, but at \$10 we  
show good ones, on up  
the scale they go 11,  
12, 13, 14, 15, 16, &c.  
up to \$35. Black and  
colors in great variety.  
Large, medium, and

Mrs. S. L. Beaden, of 61 S. River St. says: "During two or three years I suffered most of the time with a terrible dragging down pain in my back just over the kidneys. It was very trying when I was at work, and if I did any lifting my bladder became affected, causing me considerable annoyance. I also had attacks of headache, which seemed like congestion in the top and back of my head. When I read about Doan's Kidney Pills I did not have any too much confidence in them, but my daughter got a box at the People's Drug Co's store and persuaded me to use them. They took right hold and made a wonderful change in my condition. I hardly realized how bad I was until Doan's Kidney Pills brought me relief from the afflictions. For sale by all dealers. **POND'S EXTRACT**

There is only ONE POND'S EXTRACT, and everybody knows its purity, strength and great medicinal value. Don't take the weak, watery Witch Hazel preparations represented to be "the same as" POND'S EXTRACT. They generally contain "wood alcohol," which irritates the skin, and, taken internally, is a deadly poison. Get genuine POND'S EXTRACT, sold ONLY in SEALED bottles, in BUFF wrappers.

## THE NEW SOUTH.

There is just now going on in the state of South Carolina, a party fight, that may result in the permanent disruption of old time Southern democracy, and in the end, to vastly improve political conditions.

The warfare is being waged between Senators Tillman and McLaurin, and is so extremely bitter that a joint debate held at Gaffney last Saturday, both gentlemen resigned their seats in the senate, and propose to let the people of the state decide which one, if either of them, shall be returned.

Senator Tillman, familiarly known as "Pitchfork" Tillman, represents the old line, "behold the wab" Southern democracy. He advocates free silver, populism, and all the crazy fads that have cursed the democratic party. Is a great admirer of Bryan, Teller, Towne, and that class of populist leaders, and was elected last fall to the United States senate.

Senator McLaurin was born in 1860, and belongs to the class of young and progressive democrats that is rapidly coming to the front in the south. He was appointed to fill a vacancy, and then elected to fill out the term, which expires in 1903. Is extremely popular throughout the state, and a very able representative.

There has long been bad blood between the two factions and the contest between the two men will be watched with interest in the north as well as south, because the result means more than personal victory.

The extreme southern states are democratic, and always will be, in fact, they couldn't be anything else on local issues. But there are some questions like free silver, expansion and imperialism, that touch the pride and honor of the south just as they do the north, and as a result there will continue to be factional fights, similar to the one now going on in South Carolina.

In the end, the McLaurin element will prevail, because, as time advances, the Tillmans will die out, and the new generation will be more progressive, and less troubled with prejudice.

There are some problems that time only can solve, and the much discussed question of "north and south" is one of them. The South Carolina rivalry will clear away some of the fog and reveal some conditions that will help to make the country more united.

## THE DRY CANTEN BOYCOTTED.

The Chicago Tribune talks editorially about the army canteen, giving facts that can not be controverted, and yet sentimental temperance people think they have scored a victory.

"Eastern army posts are experiencing the same bad effects of abolishing the canteen as those noted at Fort Sheridan. The officers and men at Fort Wadsworth, near New York, and at Fort Schuyler, on Long Island Sound, are unanimous in deploring the change. At Fort Schuyler the demoralization among the soldiers is causing trouble and alarm. Intemperance is rapidly increasing, and no amount of guardhouse disciplining appears to have any effect in checking the evil. Several desertions have taken place. Both officers and men say this is a direct result of the abolition of the canteen. Their testimony is corroborated by the fact that there have been forty courts-martial for intoxication in the present month, while during the existence of the canteen there were only three such cases in the last two years and a half.

"The worst feature of the situation at present is the lack of restraint upon the men when they resort to the low saloons outside the reservation. Formerly they could not spend more than about \$3 a month for drinks at the canteen. Now they squander all their money after each pay day and the saloon keepers willingly give them credit. Men who were never known to be intoxicated before now have to be fined and punished repeatedly for drunkenness and disorderly conduct. There is universal resentment against the meddling interference of the Women's Christian Temperance union in cutting off the one congenial social feature of their dull routine life. The emasculated remnant of the canteen with its "soft drinks" and groceries, is severely boycotted and may have to be closed for lack of business. The profits from the canteen, which formerly served to buy small luxuries for the men's mess, have disappeared entirely.

"The first act of the present congress should be to repeal the unwholesome law abolishing the canteen and stop the progressive demoralization of the army."

A Paris dentist has discovered that music lends charm to laughing

gas, and so fascinates the patient, that he goes through an operation without pain, and leaves the chair reluctantly. He doesn't say whether a cultivated ear is necessary, or whether he uses "rag-time" or classical. If he was operating in this country he would find the classical most desirable. "Rag-time" has lost caste since the Denver convention, although it might be permitted in a case of good old-fashioned tooth-ache.

New Jersey, noted for its liberal laws on charters and corporations, has just issued a charter to the "Federal Development Co." capital stock, \$200,000, divided into 20,000 shares of one cent each. The promoter, Joseph P. Barricklow, hails from a little town in Illinois. The charter covers a wide range of industries, as charters usually do. The scheme is a novel one, and its development will be watched with a good deal of interest.

Mary E. Lease, the Kansas politician, has just filed a petition in bankruptcy. Her liabilities are not large—about \$3,300—but her assets are not valuable, and consist in a couple of thousand dollars' worth of promises to pay for lectures delivered. Mrs. Lease believes in woman's suffrage, as well as woman's rights. Mr. Lease was lost in the shuffle some time last year and is no longer available as an asset.

The South now has an opportunity of burying Tillmanism forever, and rallying around the standard of a leader who is a more progressive American than the old pitchfork ever dared to be. McLaurin is not of our political creed in some respects, but we can see in him principles which tend towards producing a statesman.

The attitude of the New York yacht club in regard to the race is certainly unsportsmanlike. Our motto ought to be: "May the best boat win," without regard to affiliation or ownership.

When Senator Hanna contributed \$3,000 to the Salvation Army recently he exposed a soft spot in his heart, which, if people knew him better, they would find of generous proportions.

For the first time since the war with Spain has the government enjoyed a breathing spell in our foreign struggles. Prosperity seems to be accompanying our troops abroad as well as our institutions at home; and yet there are those who call this a coincidence.

**Figure for Soldier's Monument.**  
The soldiers' monument committee had a meeting at the county clerk's office this afternoon and selected a figure for the top of the column. The one selected is an infantry soldier, standing with his musket at parade rest. He has on an overcoat with a cape. The figure originally selected did not have the overcoat, and did not meet the approval of the committee. The inscription at the base of the monument will be raised letters in a channel, and is as follows:

"Rock County, 1901. Dedicated to the memory of her soldiers and sailors, war of the rebellion 1861-1865."

A marriage license was issued this afternoon to Henry A. T. Litzkow and Martha E. L. Gramke, both of this city.

## LABOR TROUBLES.

**Butchers to Strike.**  
Chicago, May 28.—Butchers employed by Swift & Co., may strike unless four sheep butchers who were discharged about a week ago are reinstated. Officials of the union say that unless a settlement is reached steps will be taken to call out butchers employed by the company not only in Chicago but in its various plants throughout the country.

**Terre Haute, Ind., May 28.**—The strike of the Terre Haute plumbers was settled by arbitration Saturday, with Eugene Debs as sole arbiter. He gave the men an advance from 30 to 33 1-3 cents an hour and compromised other matters in dispute in regard to apprentices. His decision was accepted cheerfully by both sides.

**Nonunion Men Stoned.**  
Scranton, Pa., May 28.—A fatal alarm of fire was rung in last night from a box near the Lackawanna railroad car shops, where a strike is on. During the ensuing riot the windows of the shops were shattered and several nonunion men were injured by flying

**Two Runaway Accidents.**  
Kokomo, Ind., May 28.—Two runaways occurred on precisely the same spot on North Washington street and both may result fatally. Jackson, Osler and children were thrown from the wagon and all badly injured. In the second smashup, an hour later, Mrs. Asbury Law had several bones broken and was injured internally.

**Morgan After More Ships.**  
London, May 28.—"It is reported here," says the Copenhagen correspondent of the Daily Express, "that J. Pierpont Morgan is negotiating for the control of the Union Steamship Company of Denmark."

**Yields to French Demands.**  
Paris, May 28.—The sultan of Morocco has yielded in the main to the French demands. There are still some matters to be settled, but the danger of serious trouble is averted.

A KAZOO CHORUS  
MADE SOME FUN

Epworth Leaguers of the Court Street Street M. E. Church Entertained Friends Last Night

The members of the Epworth League cabinet of the Court street M. E. church entertained the league and its friends at a free social in the church parlors last evening. There was an unusually large attendance and every one had a jolly time. A kazoo chorus furnished considerable music and the Epworth Symphony club furnished some very classical music on paper covered combs. The main feature of the evening's program was a district school, the scholars being the members of the cabinet over whom Mrs. J. P. L. Hay presided as the typical school ma'am. Ludicrous answers were given to all the questions and the audience enjoyed the school session immensely.

After the program light refreshments were served. The cabinet officers who were the entertainers were Miss Harriet Rogers, president; Misses Nina Hall, Harriet Legeman, Myrtle Dewey and Mrs. W. W. Emmons, vice presidents; Miss Hattie Weaver, secretary; and Fred Isaacs, treasurer. The semi-annual election for the Court Street Epworth League will be held next Monday evening.

**Golf Club Match Thursday.**  
The match between the married and single men of the Mississippi Golf club will begin Thursday afternoon at 1:30 o'clock. The different pairs of players will be paired as fast as they arrive at the grounds. The match will be followed by a supper at the club house and a dance during the evening. Smith's orchestra of four pieces has been engaged for the dance and a good time is assured to all. The bus will meet all street cars during the afternoon to convey members from the cars to the club house.

**Transporters Leave China.**  
Washington, May 28.—A dispatch received at the war department from Gen. Chaffee at Taku says that the transports Sumner and Lennox sail today and that all of the troops that are to leave China are off for Manila.

## TRAIN FOR CHICAGO EVERY HOUR OF DAY

### OPENING OF JANESVILLE & SOUTHEASTERN JUNE 3.

Madison Will Be the End of the Division—This Road Will Give Janesville Four More Daylight Trains to the Windy City—Summary of the Time Tables.

Saturday night will see the work on the roadbed of the Janesville and Southeastern railroad company completed and in condition for the opening of the road for passenger service which will take place on Monday morning, June 3. It was the intention of the company to open the new line with entirely new equipment. Twenty-five new passenger coaches have been ordered and were to be ready for the opening day. On account of delay in the shops they may not be able to get the full equipment by Monday but a part of the cars will be put into service. A number of cars that have just come out of the shop will be put on the new line until the new ones are ready.

All of the Chicago trains will be equipped with parlor cars of the latest pattern and nothing will be left undone to make them first class in every respect. Madison will be the end of the division and all trains over the new line will run to and start from that city. These trains will give Janesville four more daylight trains to Chicago.

When this line is once in operation there will not be an hour in the day that a person cannot get a train to Chicago. Some of the trains on the new line leave at an hour which will land the traveler in Chicago at a very convenient time.

It is not the intention of the road to run a very fast train over the new line for some time, until the road bed gets settled and evened up, but as far as the stability of the line is concerned they could put on fast trains at once.

The line touches two of the finest summer resorts in this part of the country and trains will make the run from this city to Lake Long and Fox Lake in a little over an hour. The train service for passengers over the new line for the present will be as follows:

A local train or milk train will leave here at 5:40 a. m. every day, but Sunday, and arrive in Chicago at 9:40 a. m. The next will leave at 7:35 a. m. daily and arrive in Chicago at 10:15 a. m. The next leaves at 10:35 a. m. reaching Chicago at 1:15 p. m. last leaves at 5:10 p. m. and arrives in Chicago at 7:55 p. m. in time for the theatres and evening attractions.

From Chicago, coming this way, the first train leaves at 7:45 a. m. reaching here at 10:30 a. m. The next is the local or milk train which leaves Chicago at 2:10 p. m. and reaches here at 6:10 p. m. This train makes direct connections at Portage, Wis., with the Pioneer Limited for St. Paul and Minneapolis and the train leaving here at 10:40 a. m. makes direct connections at Portage for La Crosse and the Northwest.

The last train from Chicago leaves at 6 p. m. and reaches here at 8:50 p. m. The trains on the new line will make some changes in the running of the trains on the Mineral Point division. The train for Mineral Point which now leaves at 7:45 p. m. will leave at 6:45 p. m., an hour earlier and the morning train for Mineral Point will leave at 10:15 instead of 9:35 as at present.

The train from Beloit due here at 9:15 will arrive an hour later. Chas. Joss will have a train on the new line and George Corson gets the Mineral Point run. He will double the road each day.

Sick Man at the Depot

This morning shortly before eight o'clock Chief Hogan received a telephone message from the Northwestern station saying that there was a crazy man in the waiting room. The chief went up immediately and found an old man about seventy or seventy-five years of age suffering from some kind of disease. When the chief found him he said his name was Jennings, but he could get nothing more out of him, for since that time he has been unable to talk. Dr. Whiting examined the man and found his temperature to be 105 and he did not think he could last long.

Kyle and John Hart.

## CROWDS TO SEE THE WILD WEST SHOW

### PAWNEE BILL'S ATTRACTION BRINGS IN FARMERS.

A Fine Parade This Forenoon Packed the Streets as It Passed—All of the Features Were Entertaining and Educational—Battery of Artillery in Action.

It is circus day in town and a goodly crowd of people were on the streets this morning to give the first greeting to Pawnee Bill's Wild West show. The spectators who thronged the streets saw a unique and picturesque spectacle and one that resembled the usual circus parade only in the fact that the inevitable steam calliope brought up the rear end.

The parade was a bright and attractive one. There were fluttering banners and gay costumes while two splendid bands and a file and drum corps furnished the inspiring music without which no circus parade can be a success. It was music to which one horse kept perfect step, attracting much attention for his excellent performance.

In the first place it was a parade of free creatures. No cages with uneasy, protesting animals marred the pleasure of the onlooker. There were the Bedonins, sitting high in short stirrups, the United States cavalry man with his long stirrup and erect seat far back in the saddle, the Indian with his sinewy legs nestling affect-

tionally to the bare back of his horse, and the cowboy with the composite seat of them all, easy firm, compact, a part of the steed, the centaur of the great plains.

There was the bronzed trapper, the United States artilleryman, the Mexican herdsman, the Russian cossack, the Indian mother with her family and many other cosmopolitan characters that go to make the cosmopolitan population of North America.

Pawnee Bill has in his family some 350 famous people. Among the Indian chiefs are Ridge Bear, painted by Burbank, and said to be the finest representative of the American living; Red Wolf, another Burbank subject; Kiser Young Man and Chief Thunder and the celebrated Crazy Snake. In their picturesque costumes they add greatly to the color of the parade.

Among the celebrities of this army of performers are Miss May Lillie, the famous bareback shot; Joe Barraro, king of the Mexican cowboys; Alexander Georgian, chief of the Cossacks, any number of their first-class horsemen and marksmen.

It is all a great exhibition of breezy freedom and the parade was but a faint prophecy of the show itself with which a large audience was more than delighted this afternoon. The performance was all one grand and exciting whirl of dramatic scenes.

The horsemen dash around the arena, leaping to the ground and up again while their swift horses plunge madly here and there and everywhere. Then there is marvelous shooting from every imaginable attitude, a woman getting rather the best of it; the chase of the old stage coach by a band of howling savages, the rescue by Pawnee Bill and his scouts and the pursuit of the fleeing Indians. It is all very real and life like, and one is glad that the trip across the great plains is now made, if it must be made, in a palace car instead of roaming wild over the country seeking revenge for insult and injury.

There is the United States battery of artillery in action, something to bring back recollections of San Juan hill and El Caney, as well as the rough riders with their bucking bronchos, dare devil fellows who would mount a streak of lightning if they could lay hold of it. The shields of the desert, too, standing upon their horses in mad chase after supposed pilgrims to the holy shrine. Excitement enough truly and marvelous exhibitions of strength, agility, dexterity and cool bravery almost beyond belief.

Another performance will be given this evening and if merit goes for anything the canvas will be crowded to the utmost capacity. It is a good show and well worth seeing.

## VERDICT IN FAVOR OF THE PLAINTIFF

Jury Awards Wm. Byrne the Sum of Five Cents Damage Against Messrs. MacLean and Brown.

It took the jury in the case of William Byrne vs John Brown and Colin C. MacLean just fifteen minutes to arrive at a verdict after they were charged by Judge Dunwiddie this morning. After listening to the judges charge in which he instructed them, that in case they found for the plaintiff, and awarded him nominal damages they should be from one to five cents. The jury returned a verdict in favor of the plaintiff for the sum of five cents, which throws the cost of the action on the plaintiff. They evidently thought that Brown and MacLean did not use more force than was necessary to put Byrne out of the office and that he had suffered no damage from being evicted. The plaintiff has not yet decided whether or not he will appeal the case.

## CONSTITUTION OVER ALL

Decision of the United States Supreme Court.

### PORTO RICO CASE DECIDED.

Congress Alone Can Incorporate New Territory—Porto Rico and the Philippines Held to Be Temporary Spots of War—Congress Can Fix Their Status.

Washington, May 23.—The opinion of the majority members of the Supreme Court in the Porto Rico import duty cases as handed down decides the following points:

1. The constitution follows the flag.
2. The United States can have no subject colonies.
3. Porto Rico and the Philippines are now war territory and not yet an integral part of the republic.
4. They must be governed as war territory until congress acts.
5. Congress has the power to withdraw the flag and relinquish possession of them.
6. Congress alone can incorporate new territory into the United States.
7. Paris treaty did not incorporate the new islands into the United States.
8. The constitution applies to all territorial possessions of the United States.
9. President has no power outside of or beyond the constitution.
10. The president can use no "discretion" beyond the limits of the constitution.
11. Tax on Porto Rican products is legal.

**Discussions Were Warm.**  
The decision was reached after one of the most spirited discussions ever held within the sacred circle of the Supreme Court bench. There is a dissenting opinion.

This opinion, which was handed down by Justice Brown, is opposed to the contention of the government. Customs duties cannot be collected on goods brought into this country from Porto Rico.

Justice McKenna delivered a dissenting opinion. He was joined in that opinion by Justices Shiras and White. The Delima case involved the importation of goods into the United States from Porto Rico after the ratification of the treaty of Paris and before the passage of the Porto Rican act.

**Island Under Constitution.**  
After declaring that the court had jurisdiction, Justice Brown said that whether or not the sugars imported from Porto Rico by De Lima & Co., of New York were dutiable depended upon whether Porto Rico was a foreign country. He held that the right to acquire territory involves the right to govern and control it by congress, "but," he said, "a country cannot be both foreign and domestic."

"If an act of congress be necessary to convert a foreign country into a domestic territory, the question at once suggests itself what is the character of the legislation demanded for this purpose. Will an act appropriating money for its purchase be sufficient? Apparently not. Will an act appropriating the duties collected upon imports to and from such country for the benefit of its government be sufficient? Apparently not."

"Will acts making appropriations for its postal service, for the establishment of lighthouses, for the maintenance of quarantine stations, for erecting public buildings, have that effect? Will an act establishing a complete local government, but with the reservation of a right to collect duties upon commerce, be adequate for that purpose? None of these, nor all together, will be sufficient if the contention of the government be sound, since acts embracing all these provisions have been passed in connection with Porto Rico, and it is insisted that it is still a foreign country within the meaning of the tariff laws."

**Duties Illegally Exact.**  
"We are unable to acquiesce in this assumption that a territory may be at the same time both foreign and domestic."

"We are therefore of the opinion that at the time these duties were levied Porto Rico was not a foreign country within the meaning of the tariff laws, but a territory of the United States; that the duties were illegally exacted and that the plaintiffs are entitled to recover them back."

"The judgment of the circuit court for the southern district of New York is therefore reversed and the case remanded to that court for further proceedings in consonance with this opinion."

**New Scourge Serum.**  
New York, May 23.—Dr. Angel Belinzaghi, whose experiments with yellow fever serum obtained the official recognition of the Mexican government last year, announces that he has found an "active vaccine" which he believes will insure absolute and permanent immunity from the scourge.

**"Ripper Bill" Is Upheld.**  
Philadelphia, May 23.—The supreme court today rendered a decision confirming the constitutionality of what is known as the "Pittsburg ripper bill," recently passed by the legislature.

**Takes Paris Green.**  
Flora, Ill., May 23.—Sherman Manson of this city today committed suicide by taking a dose of paris green. Sickness was the cause of the deed.

**Another Oil Spill in Texas.**  
Dallas, Tex., May 23.—The report is confirmed of a big oil strike at Sour Lake. The news has set Texas oil interests all in a ferment again.

### THE FIRE RECORD.

**Flock of Sheep Burned.**  
Kokomo, Ind., May 23.—At the approach of a storm H. K. Johnson, a farmer, drove his flock of fine merino sheep into the barn, expecting to shear them. Just as the door was closed, the barn was struck by lightning and entirely destroyed by fire. The flock of forty-nine sheep was burned. The loss was \$3,000, the insurance \$3,000.

**Costly Fire at Delagoa Bay.**  
Durban, Natal, May 23.—There has been a great fire at Delagoa Bay and a block of the finest and most modern buildings was destroyed. This included the Treasury Building. Most of the records and documents which were stored in this building were burned. War material which was stored in the public works stores was saved.

**Jealous Lover Kills Girl.**  
Elkins, W. Va., May 23.—Information was received here today of the murder of Miss Sarah Parker by Samuel Reed at Gladys Fork, on the coal and iron extension of the West Virginia Central railroad, 20 miles from here. Reed became jealous because William Dooley was paying Miss Parker attention. He notified the woman that he would kill her if she did not spurn Dooley's suit. Reed and the woman had been lovers, but she did not heed his threat and continued receiving Dooley's attentions. While she was walking with Dooley Reed, it is alleged, sneaked up behind and fired a shotgun loaded with slugs at them. The woman was instantly killed, a slug penetrating her heart; Dooley was slightly wounded in the leg. Reed escaped.

**In Two Minutes**

There will be another car. But the man can't wait. He chases the car and swings on, panting and hot, but satisfied. He keeps this gait up all day. He works that way, he lunches that way. He continues this until his stomach "breaks down" and nature compels him to "go slow."

Business men who have impaired their digestion by hasty eating will find in Dr. Pierce's Golden Medical Discovery a cure for dyspepsia and other diseases of the stomach and organs of digestion and nutrition. It does not give mere temporary relief, but it effects a radical cure. It strengthens the stomach, nourishes the nerves and purifies the blood.

"For six long years I suffered with my liver, kidneys, and with indigestion, which baffled the best doctors in our country," writes E. L. Russell, Esq., of Woolsey, Prince William Co., Va. "I suffered with my stomach and back for a long time, and after taking a 'cart-load' of medicine from three doctors, I grew so bad I could hardly do a day's work. Would have death-like pains in the side, and blind spells, and thought life was hardly worth living. I began taking Dr. Pierce's Golden Medical Discovery and 'Pleasant Pellets,' as advised. Before I had taken half of the second bottle I began to feel relieved. I got six bottles and used them, and am happy to say I owe my life to Dr. Pierce and his medicines."

## Magnetism A SUCCESS

There can be no real success without true merit.

**PROF. N. R. FUNK'S SUCCESS IN MAGNETIC HEALING IS REAL.**

Cures without the aid of drugs, surgery or electricity.

## PROF. N. R. FUNK.

Mrs. Hannah Armfield, of No. 125 Glen St., says: For nearly 2 years I have been troubled with a dull aching pain in my sides, also had stomach trouble and constipation, appetite poor, sleeplessness, nausea and vomiting. I have tried all kinds of medicines and received little or no benefit. I began to improve from the very first treatment from Prof. Funk and after taking nine treatments I feel perfectly well, and it is my pleasant duty to him and to suffering humanity to acknowledge the benefit I received from magnetic treatments.

If you are suffering, investigate this method of curing disease. That the method as practiced by Prof. Funk is a wonderful success can no longer be doubted, as many responsible people of this community have tested its merits and are now enthusiastic in their praise of the good results obtained.

If suffering, you owe it to yourself to try this method of healing.

Gentlemen:—

I enclose you contract for the supply of coffee for the Bailey Catering Company, at the Pan-American Exposition, to be held in Buffalo during the coming summer. In the selection of your coffee, in competition with samples submitted by a number of the largest Importers and Roasters in the country, I have been governed entirely by the quality of the same. My experience with the coffee supplied to me during the past year or so by your house has been so uniformly satisfactory that I feel that I could do no better than to complete this arrangement with you. The amount of coffee which this involves will probably amount to as much or more than has ever been supplied to one consumer in the same length of time, and I congratulate you upon your enterprise in having secured this contract.

Very truly,

## ELIMINATION OF RICE INDUSTRY

Rice Has No Show in Texas When the Oil Craze Gets Hold of the People.

Beaumont, Tex., May 28—Beaumont is situated about eighty-three miles east of Houston, on the Southern Pacific. It is connected with Port Arthur, twenty miles south-east, by the Kansas City, Pittsburg and Gulf railway. The proven oil field is between three and four miles southeast right on the line of the railroad. All of the gushers that have come in are within a radius of a mile and a half. Very little drilling has been done outside of this area so that the extent of the field, when it is finally defined, is purely speculative.

Two years ago traces of oil were found at Sour Lake, twenty miles west of Beaumont. No deep well have been sunk here but oil land experts predict great things for the Sour Lake district when the land shall have been thoroughly prospected. The Neches river is thought by many to be the center of the oil belt. One theory is that a river of oil makes its way deep down in the bowels of the earth along this river, to and under the Gulf of Mexico. Large quantities of oil are known to escape into the gulf about five miles west of Sabine pass. This oil pool, which is indicated on the map, has long been known to geologists and old mariners. Every acre of land in the territory embraced by this map has increased in value from a hundred to many thousand per cent, since the oil was first struck in the Beaumont field.

One pipe line, that of the John Guffy Co., is already under construction from the great Lucas well, and several others which the company owns, to Port Arthur. The National Pipe Line Co., which bought the Beatty well for \$1,350,000, will soon begin its pipe line to the same port.

The Port Arthur Town Site Co., which laid out Port Arthur, about four years ago, and built the docks there, as a terminus for the Kansas City and Gulf railroad, controlled by its stockholders, owned some 28,000 acres of land along the railroad between Port Arthur and Beaumont. This land was bought for speculative purposes and since the discovery of oil at Beaumont half of it, in alternating sections, has been sold to the Standard Oil Co. The contract between the Standard and the Town Site Co., provides that the former sink a certain number of oil wells within a given time in each section. Some of the most valuable rice lands in the world are found in the lowlands along the Neches river, between Beaumont and Port Arthur. Rice cultivation is one of the recent industries of this section and millions have already been made out of it. Much of this land was bought by the rice planters at \$10 and \$15 an acre, before its value as rice land had been proven. The average yield of an acre of rice land varies from \$25 to \$70 a year. Today this land is valued at from \$50 to \$60 an acre for rice growing and the seller reserves all mineral rights. Many of the rice planters are preparing to sink wells on their rice land, and if oil is found, the rice industry, which up to this time has been a veritable gold mine, will not be worth wasting time over.

Biliousness is a condition characterized by a disturbance of the digestive organs. The stomach is debilitated, the liver torpid, the bowels constipated. There is a loathing of food, pains in the bowels, dizziness, coated tongue and vomiting, first of the undigested and partly digested food and then of bile. Chamberlain's Stomach and Liver Tablets allay the disturbance of the stomach and create a healthy appetite. They also tone up the liver to a healthy action and regulate the bowels. Try them and you are certain to be much pleased with the result. For sale by Peoples Drug Store and King's Pharmacy.

### Beware of a Cough.

A cough is not a disease, but a symptom. Consumption and bronchitis, which are the most dangerous and fatal diseases, have for their first indication a persistent cough, and if properly treated as soon as this cough appears are easily cured. Chamberlain's Cough Remedy has proven wonderfully successful, and gained its wide reputation and extensive sale by its success in curing the diseases which cause coughing. If it is not beneficial it will not cost you a cent. For sale by Peoples' Drug Store and King's Pharmacy.

## ACTIVE INTEREST IN LABOR UNIONS

Local Workmen of All the Trades Are Active in Organizing Lodges and Assemblies.

That the laboring men of Janesville are becoming actively interested in labor organizations was evidenced by the large number of workmen who attended the mass meeting held at Assembly hall last evening. The meeting was addressed by Organizer R. D. Hogan and several of the local union. After the addresses forty-six men were sworn into the Federal Labor Union, a union for all the trades which do not have members enough to form a separate union. The Federal Labor union organized temporarily with W. P. Mason as president and J. A. Johnson secretary. Another meeting for permanent organization and the securing of new members will be held on Wednesday evening.

The Carpenters' union held an enthusiastic meeting on Sunday afternoon at which time the charter list was closed and the secretary was instructed to send for the charter. The carpenters' union starts out with a membership of eighty-four.

The Painters' union held an open meeting for all painters last evening and ten new members were secured. The union now has nearly forty members.

At the close of the mass meeting last evening, a special meeting of the Federated Trades council, which is composed of three members from each labor union in the city, was held and it was decided to hold a public labor demonstration next Friday evening. All labor unions will meet at assembly hall at 7 o'clock and will participate in a parade which will be headed by the imperial band. The parade will be followed by a program of speeches which will be held at the Court House Park if the weather is pleasant, otherwise the meeting will be held at Assembly hall. W. P. Mason and M. H. Whittaker were made a committee of arrangements.

The public schools closed at 10:15 o'clock for the balance of the forenoon in order to allow the students to see the parade given by Pawnee Bill's Wild West Show.

## Rock-a-Bye Baby

These are sweet words, but how much pain and suffering they used to mean. It's different now. Since Mother's Friend has become known expectant mothers have been spared much of the anguish of childbirth. Mother's Friend is a liniment to be applied externally. It is rubbed thoroughly into the muscles of the abdomen. It gives elasticity and strength, and when the final great strain comes they respond quickly and easily without pain. Mother's Friend is never taken internally. Internal remedies at this time do more harm than good. If a

woman is supplied with this splendid liniment she need never fear rising or swelling breasts, morning sickness, or any of the discomforts which usually accompany pregnancy.

The proprietor of a large hotel in Tampa, Fla., writes: "My wife had an awful time with her first child. During her second pregnancy, Mother's Friend was used and the baby was born easily before the doctor arrived. It's certainly great."
